Yes 26 No 0 This meeting was worth my time

Yes 26 No 0 I'm glad I attended

Comments:

Great Program

More time allowed for networking or group discussions

Excellent Presentations

Great Event!

As a nurse striving to become an administrator in the future, I learned so many great things at this conference. It was a great experience learning from the different nursing leaders from all over the state of WV. Thank you for allowing me to be a part of it!

Very well organized & great atmosphere. All involved were knowledgeable & helpful in giving excellent info!

As with the previous Nursing Workforce Summit, this Collaborative was excellent.

Speakers were evidently experienced in the subject matter and conveyed their knowledge in an excellent manner. Look forward to the next conference.

Great conversations & good opportunity to connect with numerous people.

It was excellent, I'm glad I could attend

Very informative, fun conference. Speakers were very knowledgeable & friendly.

Suggest to have written instructions on screen for café exercise

I would like to set goals and work towards them for state wide improvement in nursing recruitment & retention. Establish an actual action plan.

More time for café to work on topics,

Have work session with expert at table to help with topic,

Have some sessions for staff nurses to get involved in leadership/state activities,

Nice Pace - not lengthy presentations

Continue momentum with sessions 1-2 x/year

Summarize findings to share

Speaker r/t workforce initiatives that impact state as a whole (i.e. non healthcare initiatives)

Need to encourage additional staff nurse involvement, have facilities send staff nurses.

As a speaker, I would have preferred a podium with a speaker.

Really enjoyed the end of the day café
